- Software
  NextJS - Tailwind - HTML - CSS - Java - TypeScript - Python - Object-Oriented Programming
- Technologies
  Docker - Postman - RESTful API
  MySQL
- Dutch - Native language
- English - Business English

Experience

Nike Logistics Center / Job Student
April 2023 - present, 2430 Laakdal, Belgium

During my tenure at Nike Logistics Center in Wings, I played a pivotal role in the efficient processing of shoes and replenishing stock. Working closely with a dedicated team, we streamlined operations to ensure timely and accurate handling of shoe inventory. Our collaborative efforts resulted in optimized workflows and effective stock management. This experience not only honed my organizational skills but also reinforced the importance of teamwork in achieving operational excellence within a fast-paced logistics environment.

Eurosys / Intern
February 2019 – February 2019, 3530 Houthalen-Helechteren, Belgium

As an intern at EuroSys, I gained practical experience in working with virtual machines and servers. My tasks included setting up and managing virtual machines, as well as handling server administration. This opportunity allowed me to develop valuable skills in system configuration and troubleshooting, furthering my passion for IT infrastructure management.

Education

Thomas More University of Applied Sciences / Bachelor Applied
Computer Science - Digital Innovation
2021 - 2024, 2440 Geel, Belgium

Provinciale Handelschool Hasselt / IT management
